# **BLOCK and BRIDLE**

**Nebraska '71**

# T H E E M B L E M

The straight perpendicular at the left of the emblem stands for straight moral character, sincerity, and honor which we seek to maintain in all our connections with Animal Husbandry. It is placed above all others and we expect you to follow its guidance through an upright moral life. This one thing Block and Bridle club demands of you. At the right are two distinct curves, which complete the letter B. These fundamentals are the basis upon which we build our social pleasure, mental energy, and moral force.

The block in the upper loop of the B represents the marketing or material side of our lives, and after all, our efforts are useless unless we are able to gain the material things of life. The bridle in the lower loop of the B represents the control to always have over ourselves, so as to always act as a lady or gentleman and a lover of livestock.

The colors of the Block and Bridle Club are Royal Purple and Navy Blue. The flower is the Lilac.

# STAFF COMMENTS

To friends of the Animal Science Industry—

I am happy to present to you the second Block and Bridle annual put together by the Nebraska Chapter. The annual has grown slightly from last year and as you read through the book, I hope you will enjoy learning of our club activities as much as we enjoy doing them. Nebraska Chapter is very active with old and new projects, and it is through the willing efforts of a great bunch of members, advisors, and supporters that our club accomplishes all that it does.

As we did last year, the annual will be freely distributed at livestock events around the state, to county agents, vocational agricultural teachers, and to the subscribers. I encourage all of you to read through our advertising section, see what our subscribers have to offer, and patronize them when you can. It is through their support that this annual and other club activities happen.

I hope you will find this yearbook useful and interesting as you read of our organizations functions and purposes.

Editor: Doug Brand

Staff: Chris Votaw

Dick Brown

Jim Ferguson

## PURPOSES OF BLOCK AND BRIDLE

On December 2, 1919 student representatives from four animal husbandry clubs met in Chicago, Illinois, and formed the National Block and Bridle Club, the local clubs becoming chapters in the new national organization. These charter chapters were Iowa, Kansas, Nebraska, and Missouri. From this first meeting came a constitution which included a statement as to the objectives of this club. They are: (1) To promote a higher scholastic standard among the students of animal husbandry, (2) To promote animal husbandry, especially all phases, of student animal husbandry work in colleges and universities, (3) To bring about a closer relationship among the men pursuing some phase of animal husbandry as a profession.

Membership in Block and Bridle is open to any student of agriculture, on the college level, who has a sincere interest in animal husbandry.

# AN ADDRESS FROM THE DEPARTMENT CHAIRMAN

Dear Block & Bridle Members & Friends:

I am pleased to represent the Animal Science staff in expressing a note of thanks to you for making the 1970-71 school year an interesting and exciting year. Our continuous contacts with you keeps us inspired and motivated to push on toward goals of improving Nebraska's animal agriculture.

Several points of professional philosophy may be of interest to you as you plan for the future.

Success is usually achieved by men doing the common things uncommonly well. In the Animal Science field this success is most likely to be achieved by those men who have great knowledge and ability in animal technology and who enjoy using these resources for the good of the industry or mankind. To develop one's personal knowledge and/or ability in any area, the individual must be willing to work and study. Often this work and study may concern basic subject matter that may not be directly related to the chosen field of speciality. For example, the person who aspires to be a cattle breeder in the future must have some understanding of animal breeding systems. To understand animal breeding systems one must have some knowledge of statistical genetics. To understand statistical genetics one must have some knowledge of statistics. To understand statistics one must have some knowledge of mathematics. Sometimes a "cowboy" must be pretty dedicated to stay in the saddle and develop a good understanding of mathematics. Most "cowboys" would prefer something that is more "practical". The facts of the case are that the cattle breeder of the future who routinely uses estimated breed value as the basis for planned matings in his herd will need to have studied mathematics. Similarly, cattle feeders of the future who develop their own formulas will need to understand the chemical basis for the action of new additives. Really what I'm saying is that many courses in the disciplines are practical for the development of the capacity to be the livestock breeders and feeders of the future.

A man who has developed his knowledge and ability in the Animal Science field should find a job he enjoys. He can be assured that the road to success is much easier if he is traveling it in a job he likes. Of course, the final measurements of success must include some satisfactions as well as financial status and growth. Someone has said the only really happy man is the one who is doing exactly the work he would be doing if he did not have to work at all.

Best wishes to all of you as you go forth to achieve your goals in life.

Sincerely yours,  
Frank H. Baker  
Chairman  
Animal Science Department

## REPORT FROM 1970 NATIONAL MEETING

The 1970 meeting, in Chicago during the International was attended by Ron Hagan and Greg Martin who represented the club as delegates. Also in attendance were Glenn Selk, Steve Jarchow, Jack Nemec and Steve Rezac.

The Nebraska delegation was headed by Professor R. B. Warren, who is serving his second year as National Block and Bridle vice-president. Next year he will automatically become president of the national organization.

At the meeting Nebraska Chapter's Scrapbook received Honorable Mention. In over-all activities, our state chapter ranked third. Last year's president, Larry Kubicek, was recognized as third place winner in the National Merit Winner's Contest.

## FACULTY ADVISORS TO BLOCK AND BRIDLE

*Block and Bridle advisors who helped keep the club on the go for 1970-1971 were Dr. Roger Mandigo, Dr. P. J. Cunningham, and Dr. John Ward.*

Dr. John Ward is serving our chapter in his third year as senior advisor. Originally from Nebraska, Dr. Ward has a B.S. and Ph.D. from Kansas State and his master's degree from Oklahoma State. Beef Nutrition is Dr. Ward's interest at Nebraska U. The Block and Bridle Club is grateful for the advice and assistance Dr. Ward has given us in his three years as an advisor.

Serving in his second year as B and B advisor, Dr. Roger Mandigo is a meats extension specialist. A native Californian, Dr. Mandigo came to Nebraska after obtaining his degrees at Cal Poly, New Mexico, and Oklahoma. Thanks to Dr. Mandigo for the time he has given this year to Block and Bridle.

Beginning his three year term as a Block and Bridle Advisor is Dr. P. J. Cunningham. Dr. Cunningham did his undergraduate work at Iowa State and got his master's and Ph.D. from Oklahoma State in the area of Swine Breeding. The club has enjoyed P. J.'s assistance and looks forward to the upcoming two years under his leadership.

## A MESSAGE FROM THE PRESIDENT

This past year as president of the Block and Bridle club has been a most educational and most rewarding one for me. I have come to know better the fine quality and high caliber of the men and women who are members of Block and Bridle. I am sure that as you read through this yearbook you will be able to see the fine quality of the work our members can do and are doing.

We tried a few new ideas this year such as our new program of initiation designed to give the new initiates a more meaningful introduction into the club. We also had our fall steak fry, showmanship contest, ham sales, tour, Quarterhorse and Appaloosa shows, livestock and meats judging contest, spring picnic, spring steak fry, yearbook and awards banquet.

I would like to wish the new officers and the members good luck and a successful year in 1971 and 1972.

Ron Hagan  
*1970-1971 President*

# LIVESTOCK JUDGING CONTEST

The Block and Bridle Livestock Judging Contest was held at the Horsebarn on Saturday, May 2, 1970. A total of twelve classes were placed by the 18 entries in the senior division and 8 classes by the 135 junior judges. Chairman of the committee was Jim Ramm of Stuart. Jim and his group leaders guided the 153 participants through the market and breeding classes in the morning and reasons were given in the afternoon at Marvel Baker Hall.

Ribbons were presented by Block and Bridle Club at the Spring Steak Fry, held the following Sunday.

The top five overall individuals in the junior contest ranked as follows: First, Charles Kreshel of Wilbur; Second, Roger Kubicek from Crete; Third, Larry Buell of Basset; Fourth, Bill Dicke from Wauneta; Fifth, Ron Dvorak of Lincoln.

In the team competition, the Burr Hall Team of Charles Kreshel, Dave Kasl, Roger Kubicek and Gary Stauffer took first place. Second place went to the team entry of Rodeo Club.

Glenn Selk of Cozad headed up the senior division judges and was followed by Gary Hines of O'Neill, Steve Jarchow from DeWitt, Dick Rowe of Cozad and Jack Nemec of Dubois.

*Group leader Jim Wise asks questions about previous class at the 1970 Block and Bridle judging contest.*

*Students handle a class of Corriedale Rams before marking their cards.*

*The first place team at the 1970 contest, representing Burr Hall, were Roger Kubicek, Charles Kreshel, Gary Stauffer, and Dave Kasl.*

# MEAT JUDGING CONTEST

The 1970 Block and Bridle Junior and Senior Meats Contest was held April 11, at the Loeffel Meat Lab. A total of 33 students took part in the contest which had Beef, Pork and Lamb judging in addition to Beef and Lamb grading.

In the junior division, first place went to Ron Johnson of Loomis with 880 out of 1000 possible points. Second through fifth placings were awarded to Steve Rezac, Greg Martin, Don Cunningham and Steve Jarchow.

Top senior judges were Glenn Selk and Dave Tyser, respectively. Third through fifth went to Del Puls, John Greer and Ron Dvorak.

Committee Chairman, Dave Tyser and his staff were aided in the contest by instructors Dr. Adams and Jim Wise. Awards were presented to contestants at the Spring Steak Fry on May 3.

*The top five senior judges in the meats judging contest.*

---

## SPRING STEAK FRY

*Junior Advisor Mandigo doing his thing at the Block and Bridle Spring Steak Fry.*

Approximately 200 people were present at the Spring Steak Fry held on May 3, 1970. For the first time they year, ribbons were awarded to the winners in the Meats and Livestock Judging Contests at the steak fry.

Chairman Bill O'Hare with the help of Dr. Mandigo prepared the meal of smoked pork chops, cole slaw, "Dr. Mandigo's *Spicey* Baked Beans," pop and ice cream. The annual feed took place on the lawn of the Bio-Chem Building.

# BLOCK & BRIDLE SPRING PICNIC

The Block and Bridle annual Spring Picnic was held May 14, 1971 at Pioneer Park. A large crowd was on hand as club members played the faculty in a hotly contested game of softball, following the meal. Due to outstanding performances by "Lefty Warren," "Outfield Ace Ward" and other faculty rookies, the determined B & B members suffered an agonizing but hilarious defeat. Other games included frisby toss and hundred yard dash.

Chef, alias Dr. Mandigo, prepared a tantalizing feast of barbequed steaks and all the trimmings.

In April of 1970, Nebraska Chapter of Block and Bridle introduced a club decal, which could be placed on car, truck, or building windows. The insignia, in brilliant colors of blue, yellow and white was designed by club member, Jim Koch, and was representative of our symbol. The decal, which helped to further awareness of our animal science organization could be purchased for 25¢.

# JANIKE 1970 B & B HONOREE

*Dean and Mrs. Janike with Dr. Baker and Larry Kubicek stand with the portrait of Dean Janike, which will hang in the Marvel Baker Hall, "Hall of Fame," along with other Block and Bridle Honorees.*

## EDWARD WILLIAM JANIKE

The 1970 Block and Bridle honoree is Mr. Ed Janike, Dean of Extension at the University of Nebraska. Dean Janike is a native Nebraskan, from Rising City, where he was active in 4-H Club work. He attended the University of Nebraska, from which he received a Bachelor of Science Degree in Animal Science in 1930.

Upon graduation, Mr. Janike returned to farming for a year. In 1931, he accepted the position as Asst. State Extension Agent in Animal Husbandry. Since that time, numerous positions have been held by Dean Janike, some of which are: District Agent of Agricultural Conservation, Secretary of the Omaha Livestock Exchange, State 4-H Leader and Director of Agricultural Extension. He received his present position as Dean of Extension in July, 1963.

Dean Janike and his wife live in Lincoln, where he is active on several regional and national committees.

Block and Bridle Club is proud to salute Dean Edward Janike as the 1970 Honoree, for his great contributions to Agriculture in Nebraska.

# BLOCK and BRIDLE

*Dean Janike*

The Block and Bridle Club successfully concluded 1970's activities with the Block and Bridle Honors Banquet. The Banquet was held at the Nebraska Union on May 7, in honor of Mr. Edward Janike, an outstanding contributor to the agricultural industry in the state of Nebraska.

Attending the banquet were businessmen, professors, students, agricultural leaders and friends of the Block and Bridle Club. The Union served 265 meals.

Awards were furnished by the following Block and Bridle backers who, with their support, make Block and Bridle the strong organization it is:

Animal Science Staff  
Cly Winkler, Alliance  
Knights of AK-SAR-BEN  
National Block and Bridle Club  
Nebraska Livestock Breeders and Feeders  
Assn.  
Consolidated Feeds (Nixon and Co.), Omaha  
Twin A Cutlery Co., Abilene, Kansas  
Mr. Lloyd Geweke, Ord, Nebraska, and  
friends of the Don Geweke Memorial  
American Stores, Lincoln

Banquet Chairman Bob Swanson, his committee, and all involved made the banquet an enjoyable success.

# HONORS BANQUET

*Mr. Willard Waldo, state Senator and past honoree, presents Lyle Peterson with senior scholarship award.*

*Roger Belohavy receives a check from President Larry Kubicek for recognition as high junior scholarship.*

*Rex Addis of Union Stockyards Co. gives Ron Johnson of Loomis a plaque recognizing his top placing in the junior meats judging contest.*

*Charles Kreshel out judged all competitors to receive first place money in the junior livestock judging contest.*

*Glenn Selk received dual honors in winning both the senior livestock and meats judging contests.*

*Senior Advisor Vipperman presents trophy to Bob Swanson for being the Senior Workhorse Award winner.*

## B and B PRESENTS

*Rick Rosenquist, 13, of Ceresco proudly accepts the trophies for Championship of the Open Class Junior Division Sheep Carcass Contest at 1970 State Fair. Sheep Show superintendent, John Eberspacher (left) and Ron Hagan, president of B & B present Rick with the B & B trophy.*

*A Trophy, donated by the Block and Bridle went to Dewey Carr of Elgin for his championship sheep carcass in the Second Open Class Sheep Carcass at the State Fair. Dewey is being congratulated by the Sheep Show superintendent John Ebserspacher and Ron Hagan, president of Block and Bridle Club at the University.*

# STATE FAIR TROPHIES

*Kristy Anderson of Lexington receives the B & B trophy for the Champion Carcass in the 1970 Nebraska State Fair 4-H Beef Carcass Contest. The Trophy is being presented by Dr. Frank Baker, Chairman of the Animal Science Dept. and Ed Klima, vice-president of B & B.*

*Paul Retzlaff displays the Block and Bridle trophy, given to the Waverly FFA Chapter for being the Outstanding FFA Chapter at the 1970 Nebraska State Fair.*

## FALL STEAK FRY

The fall steak fry was held October 1, 1970 on the lawn of the Bio-Chemistry and Nutrition Auditorium. Purpose of the fall steak fry is to introduce University freshmen to the Animal Science Department and Block and Bridle club. The event was well attended by club members, department faculty, and the potential members.

After the bar-be-que, the entire group listened to an address by Calvin Kruska, who spoke on beef promotion.

## INITIATION TAKES ON NEW LOOK

This year Block and Bridle initiated a total of 66 new members. First semester initiates were treated to a "friendly" evening in the Horse Barn, and the usual egg breaking, tobacco chewing fun and games were the sights of the night. Second semester initiates were the product of a new initiation system which took on the form of a pledge system. The new "pledgeship" program consisted of becoming actively involved in a spring B and B event, (like the Horseshow), attending all meetings and activities, and getting paddles signed by faculty and officers. The new system is still being evaluated and final results remain to be seen.

# ANIMAL SCIENCE DEPARTMENT COMPLEX

The University's Animal Science department centers around Marvel Baker Hall. The building furnishes complete facilities for nutrition, animal breeding, and physiology research, making it possible to coordinate field station research with campus research to better serve the people of our state.

The new facilities, which were completed in 1968, include 12,000 sq. feet of chemical and physiological laboratory space, 25,000 square feet for the live animal research and another 17,000 sq. feet of office and classroom space.

The academic community of animal agriculture in Marvel Baker stimulates self-improvement and development of the scientist-teacher on the staff. Nebraska youth who study animal science profit through the excellence of the educational opportunities available to them. The department provides a variety of classroom activities for its undergraduates. Students work in the analytical labs, the meat laboratory and in the animal units.

MBH permits total integration of the staff with Loeffel Meat Lab., where intensive research projects and preliminary trials coordinate at the center of the state's livestock research program. Loeffel Meat Lab engages primarily in carcass evaluation, meat research, teaching, and extension.

The third building in the complex, is the Judging Pavillion. Often called the Horse Barn, the building provides classroom space, animal stalls, and a large arena. The building is used for live animal evaluation and for judging contests.

*Marvel Baker Hall*

*Loeffel Meat Laboratory*

*Graduate student extracts rumen sample from fistulated Steer in MBH Laboratory.*

# BLOCK AND BRIDLE LITTLE AK-SAR-BEN

The Block and Bridle Showmanship Contest known as "Little Ak-Sar-Ben" was held the evening of October 23, 1970 at the East Campus Horse Barn. This year the contest was held in conjunction with the First Annual Animal Science Alumni Banquet. This caused a good number of the department's alumni to attend "Little Ak-Sar-Ben" and a good crowd was present for the entire show.

Larry White was Chairman of the contest. Chairman of ribbons and trophies was Dick Brown. Bill O'Hare was chairman of bleachers and seating arrangements. Glenn Selk was the announcer for the contest. Assisting the judges as ringman was Jerry Dearmont.

Official judges for this year's contest were: Dennis Wade, Elwood, beef; Delmer Gerdes, Wymore, swine; Mark Mather, Mead, sheep; Cyril Bish, Lincoln, dairy.

There were five showmanship classes: two of beef, one of swine, one of sheep and one of dairy. There were five ribbon placings available for each class and a Grand and Reserve trophy for the two overall winners. Thirty University of Nebraska students took place in the contest. There were sixteen entries in beef, eight entries in swine, three entries in sheep and three entries in dairy. The top two showmen of each species were as follows:

*Beef:*

1. Mike Hartman
2. Chuck Graff

*Sheep:*

1. Gary Kubicek
2. Dave Dawes

*Swine:*

1. Randy Nabers
2. Max Hoffman

*Dairy:*

1. Jerry Snide
2. Lynette Tenhulzen

The four judges worked in a cooperative effort to pick the Grand and Reserve Champion showmen as each species winner showed each class of livestock to the respective species judge. After the top sheep showman won the Grand Champion Showmanship Award, the second place showman was called upon to show each species in a bid for the Reserve Champion Showman. The Grand Champion showman was Gary Kubicek, a freshman from Crete. The Reserve Champion showman was Randy Nabers, a sophomore from Seward.

Peg Plank, the 1970 Block and Bridle Queen, was on hand to pass out the ribbons and trophies.

*Two handsome trophies, presented by Block and Bridle, await the winners.*

Grand Champion Showman, freshman Gary Kubicek, receives trophy from 1970 Queen, Peg Plank. Also present are Animal Science Department Chairman, Dr. Frank Baker with Judges Delmer Gerdes, Dennis Wade, Mark Mather and Cyril Bish.

Queen Peg Plank presents trophy to Reserve Grand Champion Showman, Randy Naber.

Beef judge Dennis Wade with Champion Beef Showman, Mike Hartman, Wood River.

Judge Cyril Bish selected Jerry Snide of Valley as his Champion Dairy Showman.

Professors, Alumni, parents and friends of competitors made up the large crowd in attendance at the "1970 Little Ak-Sar-Ben."

Beef Exhibitor putting on final touches before entering the show arena.

# 1970 HAM SALES A SUCCESS

The 1970 Ham Sales were guided by Jerry Dearmont and Don Cunningham. This year, as in the past, the Hormel Cure 81 hams were sold by club members and the five queen candidates. Sales began in November, and when they were over with in January, a total of 23,000 pounds sold for \$27,000, netting the club a profit of \$3,700.00.

The ham sales, being the club's only fund raising project, provide funds for scholarships and the Spring Tour. This year the three top salesmen were Francis Dobrovolny, Jim Koch, and Larry White, who were awarded cash prizes for their efforts.

*Jim Koch, Program Chairman, and President Ron Hagan promote the 1970-71 Block and Bridle Ham Sales by presenting A Block and Bridle Hormel Cure 81 ham to D. V. Varner, University of Nebraska Chancellor.*

*Block and Bridle queen candidates for 1971 were Marilyn Shipley, Jan Hagan, Ann Paulson, Teri Bedient, and Sue Vierregger.*

## B & B QUEEN CONTEST

Crowned 1971 University of Nebraska Block and Bridle Queen was Miss Susan Vierregger, the 20 year old daughter of Mr. and Mrs. Robert L. Vierregger of Springfield. A sophomore, majoring in Home Economics, Sue is affiliated with AHEA, Home Economics Education Association, University 4-H, All University Fund and Burr Hall committees. During her 10 years as a 4-H member, Miss Vierregger was active in several livestock projects. As B and B queen, she received a trophy, a dozen roses, a gold watch, and a free trip on the Block and Bridle Spring Tour.

The crowning ceremony was February 11, 1971 at 7:30 p.m. at the Bio-chemistry and Nutrition Building on East Campus. After announcing the winners and a short program, the finalists were taken out to dinner by official escorts, representing Block and Bridle Club.

Voting for the Block and Bridle Queen is based on the ham sales credited to each finalist by the club members and candidates. This year's total sales amounted to \$27,450 with a net income of \$3,700 for Block and Bridle. Proceeds from the ham sales finance the club's activities for the coming year.

First runner-up was also a Burr Hall representative, Miss Janet Hagan, from Oconto. She is a sophomore, majoring in Home Economics Education.

Miss Ann Paulson, a Gamma Phi Beta, was second runner-up. A sophomore from Valley, Miss Paulson's major is Home Economics.

Representing Kappa Delta, Miss Marilyn Shipley was third runner-up. A junior from Valentine, Miss Shipley's major is speech therapy.

A social welfare major, Miss Teri Bedient, a Sigma Kappa, was fourth runnerup. She is a sophomore from Bradshaw.

*Peg Plank presents trophy to Sue Vierregger, 1971 Miss Block and Bridle.*

BRIDLE QUEEN

# 1970-71 PROGRAM REVUE

## *OCTOBER 1st, FALL STEAK FRY*

Calvin Kruska was guest speaker, talking to members and guests about beef promotion.

## *NOVEMBER 5th*

Dr. Del Dearborn, former U. of N. Beef Extension specialist and now associated with International Beef Breeders of Denver, Colorado spoke to the club about beef cattle production in the 1980's.

## *DECEMBER 17th*

Loren Schultz, U. of N. Agronomy graduate, spoke to club members about the Peace Corps program in Columbia and had a slide presentation of the country and the agricultural industry.

## *JANUARY 7th*

Archie White of Hormel and Company, Fremont, spoke on merchandising of Hormel Hams. He also dealt with the future of meat processing and soybean substitutes for beef.

## *FEBRUARY 4th*

John Grieg, a prominent cattle feeder from Esterville, in northern Iowa gave an impressive slide presentation and talked of his beef operation, illustrating innovative ideas, and the practical and impractical aspects that arise in many beef feeding operations.

## *FEBRUARY 18th*

Grady Polk, representative of Farmland Industries spoke to the B & B club about Agricultural Business and operating procedures at Farmland Industries.

## *MARCH 25th*

Jim Baldridge, National Livestock Brokers Inc., North Platte, was the guest speaker. He talked about exotic cattle breeds, illustrating the needs and trends of the beef cattle industry in the future. He presented slides of the Limousin cattle in France.

Jim Koch was the program chairman of B & B, 1970-71.

## B & B SPRING TOUR

25 club members and sponsors departed from Marvel Baker Hall on April 14, 1971 for the annual Block and Bridle tour. Each year the tour stimulates a closer faculty-student relationship while having the chance to visit outstanding livestock operations, research facilities and neighboring universities in the Midwest. 11 stops made our busy, interesting and fulfilled schedule complete.

*Merrill and Dave Nickols stress production testing at their Reg. Angus operation in Anita, Iowa where they showed us their 1875 lb. featured herd sire.*

*It really wasn't that deep, but B & B members put on plastic overshoes as they entered the Farmers Hybrid Swine Operation at Hampton, Iowa.*

*Gordon Shay, horsetrainer for Gainey Arabs at Owatonna, proudly display a valuable Arab and explains their goal to produce the ideal horse.*

*Queen Sue Vierregger and B & B tour chairman Roger Kubicek discuss the night before, while touring Nutrena in Minneapolis.*

# TOUR ITINERARY

WEDNESDAY, APRIL 14

4:30- 7:00 a.m.	Lincoln to Anita, Iowa
7:00- 8:00	Breakfast
8:00- 9:00	Nichols—Angus
9:00-10:30	Anita to Grand Junction

QUALITY BEFORE QUANTITY

OUR 1970 NEBRASKA STATE FAIR JUNIOR and GRAND CHAMPION GILT and NATIONAL BARROW SHOW CHAMPION which sold for \$2500

- ★ Our herd ranks 7th Nationally in the production of Certified Meat Litters, the only Nebraska herd in the top fifty.
- ★ We build our reputation through continuous on-the-farm performance testing and back that information with Swine Testing Stations. The 1971 Spring pigs are being tested at Wymore, Clarkson, and Macomb, Illinois.

## THINK PROFIT:

Many Block & Bridle members will be the beef cattle leaders of tomorrow. Some in the actual production of beef . . . others in a closely related line of beef work. Whatever your line of endeavor, don't forget the extra profit potential in a beef operation based on Shorthorn and Polled Shorthorn blood. Shorthorns give you - - -

...extra weaning weight without extra calving difficulty

...extra feedlot gains without extra feed expense

...extra carcass grade without loss of size

Remember, too, over 30 recognized beef breeds, including many of the largest, trace to short-horn parentage. WHY? It's because SHORT-HORNS PROFIT-MARK THEIR PROGENY WHILE OTHER BREEDS MERELY COLOR-MARK THEIRS.

# ANI SCI PROF HONORED

The Block and Bridle Club wishes to congratulate Professor Charles H. Adams, U. of N. Meats Instructor, on receiving one of five "Distinguished Teaching Awards" presented by the University of Nebraska Foundation. "Charlie" was chosen from the entire faculty of the University for the award, which consisted of a medallion and a \$1,000.00 check.

Professor Adams was also one of three finalists in the contest for the U of N Builders award for Outstanding Professor, which was chosen by student ballot.

B and B extends its congrats to you, Charlie.

To keep alive the old adage that "all work and no play make Jack a dull boy" Professor R. B. Warren's junior judges from Ani Sci 103 take time out for a little football on the Christmas Break Holiday Tour.

Due to the lack of a stadium in which to play the game, students took advantage of the sheep pasture at the Harry Hart sheep farm at Cozad, Nebraska, and the game carried on.

Who won? R. B.'s team, of course.

Like this cowboy of Ace Reid cartoon fame, the University of Nebraska Block and Bridle club "kicks off" the fall semester with it's fall steak fry and continues soaring along at a rapid pace all year.

This annual pretty well closes out the activities of another school year, and it is here that we would like to recognize and thank all who have helped make this annual a reality:

—A special thanks to Mr. Ken Peitsch and his staff at Nebraska Hall for arranging type, the printing, and the advice they have given us.

—Also, thanks to the secretaries of Marvel Baker Hall for all the typing and errands they do for the club.

—Thanks again to our subscribers for the support they have given this project.

—Thanks to Mr. Dick Dodds, who has been the photographer for the club at nearly all events, no matter when and where they may be.

—And last but not least, thanks to the members and the faculty for giving us the opportunity to carry out this project.

The Annual Staff
